Check Positive Pay

Protect your business from check fraud.

Managing payment processing and check reconciliation can be daunting for any business, especially at high volumes. Dime's Check Positive Pay solution enables you to protect your business through automated check reconciliation. Check Positive Pay¹ matches checks processed and presented for payment against your business's list of checks daily. If exceptions are found, we'll report them to your business for review. You can make the final "go/no go" decision.

As a leading business bank in New York, Dime understands your business needs. Our relationship managers will help set up Check Positive Pay to protect your business for the future.

Benefits of Check Positive Pay

- **Improve check fraud detection and mitigation**
- **Improve audit control**
- **Simplify accounts payable processing**
- **Improve business flow and profitability**
- **And more**

¹ All products subject to Dime approval.
